The rebel ram Columbia sunk in Mag-notia Creek has been raised, and is found not to be greatly injured. She will be-brought to the North.

The secessionists of Charleston were wild with joy on learning of the seesseinstion of President Lincoln, and it is said that the women were actually so profans as to fall on their ancese and express their thanks to God for this crime. But the arrest of ex-Governor Aiken appeared to ring them to their senses, and they immediately became more indiscreet in their

Mr. Alkens arrest and the expunction of the contamiscious Episcopal clergyman, Mr. Marshall, who refused to substitute the prayer for the President of the United States for that which he had been offering for J-ff. Davis, had caused much excite ment among the Charlestonians. They insist that Governor Aiken has never been anything but a Union man.

The Tribune's Washington special has the following: The President has been strongly urged by prominent gentlemen here to sufject to arrest and trial such men ss Brick Pomeroy, of the La Crosse, (Wis,) Democrat, and the editor of Chicago Times, who, during the past year have publicly advised and incited the assassination of President Lincoln. The subject is receiv-

ing serious consideration.

The Times' Richmond correspondent mays: The notorious chief of the rebel detective squad, Samuel McCubbin, has sur-rendered himself. McCubbin left Richmond on Sunday, April 1d, in charge of the treasure which the rebel Secretary had reserved for any emergency that might arise. He left Jeff Davis and Benjamin, with extra Billy Smith and a bost of other leaders sboro.

Mr. Trenholm was taken very sick at Greensboro, and visited the house of one of the leading men there, who asked him to exchange gold for Confederate scrip .-The Secretary refused on the plea that North Carolina had not furnished any of it, that it belonged to the State of Virginia. Before they left for the South, they distributed a considerable quantity of gold among the party as a precautionary measure in the event of their being hard pushed.

ATTEMPT TO INTRODUCE TELLOW FEVER. HALIFAY, N. S., May 6,

The Bermuds papers contain a long account of the judicial investigation now being held at St. George's of the attempt of Dr. Blackburn to introduce yellow fever into New York, Philadelphia and other Northern cities. Blackburn visited Bermuda estensibly on a philanthropic mission in connection with the cause of yellow

The evidence shows that he collected while there, bedding and clothing taken from fever patients, that he purchased and infected new clothing, which he packed in trunks and left in charge of parties with orders to forward them to New York in he spring. One witness testified that Bisckburn represented himself as a Conederate agent, whose mission was the destruction of the Northern masses. It was also shown that several persons connected with the agency of the Confederate States were cognizant of these facts. It is stated that there were ten trunks, three of which have been found and their contents buried by the Board of Heal h. Blackburn is well known in these provinces as a leading and ultra rebel. NEW ORLEANS, April 29, Two hundred and sixty-seven rebel efficers, ranking from Colonels to Lieutenants, captured at Mobile, arrived to-day. The continues rising. The break in the levee six miles below Algiers was repaired to-day. Little damage was done.

The Times' correspondent says that the country on the east side of the river at unnics Landing to Bayou Jara is completely inundated for thirty-five miles and using great suffering among the inbabitants; many are in a starving condition. Morganza is abandoned in consequence o the flood. The levee is giving away daily, and fears are entertained of a more destruc-tive overflow than has ever occurred.

The Mobile News learns that the daily line of steames between Mobile and New Orieans will be established. The arrangements are nearly completed. The Mobile News of the 27th learns that the rebel rams Nashville and Morgan and five rebel steamers are at Demopolis.

No troops except Maberry's guerrillse are between Mobile and Demopolis. The demoralization in the rebel army and navy in that region is very great. The steamer Morning Star arrived to-

ACCIDENT TO A SCHOONER.-As the schoon W. G. Whaling was dropping down the river yesterday morning, about eight o'clock, without a tug, the swiftness of the surrent rendered her difficult of ma agement, and just above Light-house street oridge her bowsprit ran into a large pile of barrels of salt, on the dock in front of Begges and Sinclair's warehouse. The current carried the vessel around, her stern triking against the central pier of the idge, while her bowsprit remained fast in the pile of barrels. The bowsprit was so badly injured by the collision that it had to be cut off, close to her stem.

ARTRUCA AHONG THE MORNOSS .- It can hardly be necessary for us to remind our readers that the great showman, Artemus Ward, will exhibit his wax works at Brainard's Hall, on Tuesday evening next. His panorams will likewise be unfurled to the entonished gaze of Clevelanders, and illustrated by the numerous and brilliant "goaks,' of the unrivalled "goaker." "A prophet is not without honor" says the proverb, "save in his own country and among his own people." The saying cannot surely apply to humorists, for A. Ward is nowhere more popular or better sppresiated than in this, his old home. He will have a big audience, on the occasion of the exhibition of himself and his "Ininna"

FROM THE OIL COUNTRY.

Errata-New Well-[Special Correspondence Cleveland Leasua] On REGIONS, May 6, 1865. EDITOR LEADER: - Your proof reader made

OIL COMPARIES, &C.

and work with my last letter, published in the LEADER of to day. Some of the typographical errors were too important not to corrected. Sugar Creek was printed "Lyon Creek;" the new well upon the Egbert Farm is printed as being "several | iug : miles" from Maple Shade, instead of rods, which would make the farm a much larger one than the Doctor claims ownership of; the Tionesta region is reported as the "Ironstone;" a well is reported as being nearly through the "thin sandstone," instead of the "third sandstone", as it should be; Dr. Egbert is reported to have studied with Dr. Porter Thayer of Cleveland instead of Proctor Thayer; and of the new Rickory well it is printed that the first hundred barrels sold for \$30 000, which would put the oil at the comfortable price of three hundred dollars per barrel. It was written, the first thousand barrels. Such mistakes are easy to make but hard to correct, for they make a correspondence not only worthless but ridiculous.

Another mistake was my own, and was caused by misinformation. It was the Jersey Well, and not the Maple Shade which crased flowing on Tuesday last. My informant was misled from the fact that the two wells are immediately adjoining. A new well was struck yesterday upon Cherry Run, above Plumer, belonging to the United States Petroleum Company. Its yield is reported all the way from one hundred to four hundred barrels. Caurs. Railroad Izems.

The Directors of the New Lisbon, (0,) road to completion. Buffalo has begun to manufacture loco-

notives. Mr. David Bell has sold two to

the Pittsburgh & Erie road for \$25,000 each. They are the first made in that city. Railroading in Italy is described as so

prospect of a more startling conclusion. It is said that the Baltimore & Ohio road is in excellent condition, all the old equip-

against guerrilla incursions. The re-establishment of the railway system of the South will be a work of much difficulty, owing to the ruin in which they have been left by the rebels. The rolling stock is nearly exhausted, the track worn out and the main lines desperately injured, and their finances involved in almost hopeless embarrassment. The rebel government seized and operated them without may compensation to the companies, and it is probable that only few of the strongest will be able to put their lines in order at once, obtaining from the North such sup-

plies of rolling stock and railroad iron

they can find means to pay for.

THROUGH THAIR PROM CINCINNATI TO NEW Youk .- Commencing Monday, May 8th, one through train will run from Cincinnati to the Eastern cities. This train leaves the New Passenger Depot of the Cincinnati, Hamilton and Dayton Railway at 8 A. M. It connects at Salamanes with the Eric Railway for New York, Boston, &c., and at Mansfield with the Pittsburg, F. W. & C. Railway for Pittsburg, Philadelphia, Baltimore, Washington City, &c. The Atlantic and Great Western Railway is in thorough condition, and perfect in all its appointments.

IMPORTANT TO TRAVELLERS.—Chief Justice Chase in a case before the United States In reference to the responsibility of steamheve a ruling effect upon the similar responsibility of railroad companies.

A passenger on a steamboat, who pays fare or has free passage to a specified place, is entitled to take with him the usual quantity of baggage, and the owners of the vessel are responsible for the safe conveyance and delivery of the baggage as common carriers. But this responsibility as common carriers for baggage onds with the voyage of the passenger, unless continued by a special contract, express or implied. If, in the absence of such conimplied. If, in the absence of such con-tract, the owner of the baggage leaves it on the boat, voluntarily or intentionally, and without the knowledge of the officers, it must be at his own risk. He cannot by such action impose the responsibility of common carriers upon the owner. It is true that baggage so left, when found to be on board, must be retained until it can be landed at some convenient place; and it may be that wilful misconductor gross negligence in respect to it, of the officers or servants of the boat, would subject the owner to responsibility. I entertain some doubt on the last point, but am clear if no such wilful misconduct or gross negligence be found, the loss of such baggage must be borne by its owner.

IMPORTANT ACTION OF WESTERN PRINSPL-VANIA BANKERS .- The Meadville Republican says that an important meeting of the bankers of the oil regions and Western Pennsylvania was held on Friday last at the McHenry House, Mcadville. The meeting was well attended, and a general desire was expressed to withdraw the circulation of the State banks and substitute the National currency at the earliest practicable day. After a full discussion of the subject a committee of Col S. B. Dick, of the Banking House of J. R. Dick & Co., Meadville; W. C. Curry, Cashier of Second National Bank, of Erie; G. Mosier, of the First National Bank, of Meadville; Cyrus Clarke, of Bank of Lawrence county, and Hon. C. V. Cuiver, of Franklin, were appointed to prepare a plan of action to be submitted to the meeting.

They made a report in the form of an agreement, which was unanimously approved and signed by those present, and forwarded for the signatures of interested bankers not present. This agreement gives notice that, after the 20th inst., all currency not at par in Pittsburg, will be taken at a discount of one per cent.

"A THESE OF BEAUTY IS A JOY FOREVER."-What more beautiful than flowers! In what way can a few surplus dollars be better expended than in their purchase! They are at once the cheapest, the most enduring, and the most effective monument which can be raised to the genius of taste and beauty. They soften down the asperities of life, they lend romance to its practicalities, they adorn its simplest passages. Without them "the splendidest chambers look blank and sad ;" with them the barest and dreariest of homes becomes touched and transformed, as by magic, into something fascinating and fairy-like. Now, of all seasons of the year, is the time for them. and those who are seeking them can find no better place to gratify their tastes than at the beautiful green-house of William Witworth, No. 113 Cedar-st. Mr. Witworth has on hand a finely-selected and complete stock of flowers, of every variety, suited to every teste and every purse. Give him a call, and take a look at his well-filled and attractive green-house. By taking the Prospect street cars to Hudson street, you find yourself within two short squares of the place.

ACCOUNT YEAR

MORNING LEADER OFFICE, PATCHEAT STRING, May 6 1865. There is at present Jess speculative feeling in North Bend, fourteen miles northwest of mercant's circles throughout the country than has the acterized them since the war. From all the leading points the information is manimum secumulation everywhere of messey seeking bor nowers at uncommonly low ra es of interest, and more than one-half of which finds takers. In this wrket the past work has been almost uninter rapiedt, qui t in the discount line, and though the Government has been a liberal checker, currency balances with the exception of one or two of the National Banks that have not yet filly received their sames have been k-pt largely in silvance of the demand. In the meantime the leading pro-dece markets have largely declined, without bing is lines of to any considerable extent here, and the off at is the reduction of trade to the narrowest limits of local and interfer wants, thus favoring a outinuance of the quiet in meney circles, which shall find a market outside of its own limits. The f of here seated, while it has had the effect of allowing an accumulation of currency, has kept not Eavern Exchange, and the market for this has ruled pretty close, with fi m rates at par buying

and % to % premion selling.
The c was a general let down to-day from the activity of the past few days in Gold and Stocks. one per cont. of this figure. There is still no speculative feeling, and the market seems to be await ing turther intelligence from Rusope, new due before making any decided movement. Govern ment Bonds are quest and steady.
